FILED SUB-BIDS DUE: APRIL 10, 2025, 10:00 AM

GENERAL BIDS DUE: APRIL 24, 2025, 10:00 AM

The following additions and/or alterations to the plans and specifications, for the above referenced contract, are to be incorporated into all bids for the proposed work.

Inclusion of this addendum must be acknowledged on Page 00300-1 of the specification section entitled "FORM FOR GENERAL BID" and Page 00305-1 of the respective "FORM FOR SUB-BID." Failure to acknowledge any and all addenda in the above specified specification section may be cause for rejection of the bid by the OWNER on the grounds that it is not responsive to the "INSTRUCTIONS TO BIDDERS."

GENERAL STATEMENT

- The deadline to submit Filed Sub-Bids remains on Thursday, April 10th, 2025, at 10:00 AM.
- The deadline to submit General Bids remains on Thursday, April 24th, 2025, at 10:00 AM.

QUESTIONS

- Q1. With respect to the project bid construction schedule and the ongoing uncontrollable impacts to the supply chain, shortages of products and long lead times, we assume the Construction Manager and/or General Contractor has or shall take these long lead times into account when providing their CPM schedules to the Owner, to confirm the as-bid electrical work can be performed within the contract duration?
- A1. *All work shall be completed within the time listed within the Contract Documents. The General Contractor and Subcontractors shall coordinate their schedules accordingly to accommodate lead times, etc. as necessary to complete the project. Reference Specification Section 00700 – GENERAL CONDITIONS for information related to progress, delays, interruptions, etc.*
- Q2. The Aluminum windows on this project are spec'd Kawneer 516/518 Fixed Windows which is a Canadian product. These are a stick-built system and will likely not meet the MA Stretch Energy Code. Please confirm if bidders should proceed with these as specified or a more energy efficient window or stick built system.
- A2. *The window basis of design has been modified. Specification Section 08520 – Aluminum Windows has been revised under this addendum.*
- Q3. Confirm interior window type 'B' is intended to be a hollow metal frame, otherwise please provide a window product series, as the only aluminum window is a thermally broken window system.
- A3. *The interior windows may use non-thermally broken frames. Specification Section 08520 – Aluminum Windows has been revised under this addendum.*
- Q4. Reference Specification Section 08520 – Aluminum Windows, paragraphs 1.05.C.6 & 7, there are requirements for both small missile impact and large missile impact compliance. Please confirm which criteria are required for the Aluminum Windows.
- A4. *The testing criteria required for the aluminum windows is the Large Missile Impact Compliance. Specification Section 08520 – Aluminum Windows has been revised under this addendum.*

- Q5: So called Paragraph E listings are to name all persons, firms and corporations furnishing labor or labor and materials for the class or classes or part thereof for which the section of specifications is customarily performed by sub-subcontractors. On this project there are no Paragraph E listings included in the Electrical specifications which would require the electrical subcontractor to self-perform all work included in the Electrical specifications and not allow for the electrical subcontractor to list any sub-subcontractors to perform labor or labor and materials for any specification section included in the electrical scope of work. To comply with Massachusetts General Laws and for more open and competitive bidding, can Lightning Protection Systems - 16670 be listed as Paragraph E listings in the electrical specifications and on the electrical bid form to allow the electrical subcontractor to list sub-subcontractors to perform labor or labor and material for this specification section?
- A5: *Paragraph E in Specification Section 00305N – Form for Sub-Bid Electrical(attached) and Section 16101 – Electrical Work Filed Sub-Bids have been revised under this addendum to include lighting protection as a sub-sub bid class of work.*
- Q6: HM Doors – 101, 108, 108.2, 109 call for door Type C3. There is no door Type C3 shown. Assumption is they are intended to be Type C4. Please confirm.
- A6: *Reference Architectural Drawing revisions per Addendum No. 1, which addressed deleting label ‘C4’ and replacing with label ‘C3’.*
- Q7: Overhead Doors Section 2.01.B.4: Wall Mounting Condition Specs call for “Between Jambs Mounting”. If the intent is to bring equipment and vehicles through the Overhead Doors, then the mounting condition should we switched to “Face of Wall Mount.” Face of Wall Mount will cut down on the chances of vehicles or equipment hitting the guides, coil, etc. Please confirm Face of Wall Mount is an acceptable option.
- A7: *Between Jamb Mounting for overhead doors is required per the specifications.*
- Q8: No pipe material type or pipe sizes are shown for the drainage piping on the stormwater controls plan. Please provide.
- A8: *Reference Note No. 1 on Sheet 02-C-7 issued under Addendum No. 1 for drainage piping size and material.*
- Q9: Please move or clarify the label and associated information for CB-7 which is covered by the 20” overflow pipe label/information.
- A9: *Labels and associated site plan information have been modified in the revised drawings issued under Addendum No. 1.*

- Q10: Confirm plywood and blocking at parapet is the responsibility of the Roofing Filed Sub-Bid.
- A10: *Plywood and wood blocking at parapet shall be provided by the Roofing Contractor. Specification Section 07201 – Roofing and Flashing Filed Sub-Bids has been revised under this Addendum to include Specification Section 06100 – Rough Carpentry, and Specification Section 07500 – Membrane Roofing has been revised under this Addendum to include wood blocking and plywood as part of the roofing system around the edge of the building roof.*
- Q11: Specification 10500 Lockers calls for single-tier lockers, while drawings show stacked. Which is correct?
- A11: *Lockers should be stacked double-tier lockers as shown on the Drawings and in accordance with Paragraph 2.02.B of Specification Section 10500.*
- Q12: The existing conditions drawing 02-C-2 shows layout of buffer zones, but no existing contours were provided. The Boring location Plan provided in Appendix A which appears to show contours is not legible. Please provide a drawing with existing contours.
- A12: *Existing contours have been revised in the civil drawings that were re-issued under Addendum No. 1.*
- Q13: Specification Section 02050 provided Diameter of Tank and Height of Tank and Interior Baffle Walls. Please provide existing tank drawings and/or details to quantify demolition quantities for the Additive Alternate. Additional information required includes wall thicknesses, foundation thicknesses and wall layouts.
- A13: *All available information related to the existing chlorine contact tank is presented in Specification Section 02050 and in Appendix G – Existing WTP Record Drawings. Contractor shall bid the work based on this information. Additional costs for wall or foundation thickness will not be basis for any claims during construction.*
- Q14: Additional Special conditions of the Order of Conditions, #18 requires a Wetland Monitor during and post construction operations. Is the General Contractor responsible for hiring and/or payment of the monitor.
- A14: *The General Contractor is not responsible for hiring and/or payment of the wetland monitor.*
- Q15: Please confirm that the GC is responsible for the fees associated with the Building Permit, that the Building Permit is paid to the Town of Mansfield, and that the project will be charged \$18 per \$1,000 for the entire Contract Price of the project. This represents a significant cost and its important all contractors are

basing their bids on the same thing.

A15: *The General Contractor is responsible for the fees associated with the Building Permit. The Building Permit is paid to the Town of Mansfield. The permit will be charged \$18 per \$1,000 for the entire contract value of the project less site work (Division 02). We understand that this represents a significant cost.*

Q16: Please confirm that the Electrical and Plumbing Filed Sub-bidders are responsible for the permit fees associated with their work

A16. *The Electrical and Plumbing Filed Sub-bidders are responsible for the permit fees associated with their work.*

Q17. Some of the fans most likely won't qualify for BABA (EF-1 through EF-4) and potentially EF-5 and EF-6. Small fans don't usually qualify because the motors are sourced overseas and take up a larger portion of the product cost on smaller fans. Please provide the names of three vendors that can meet the BABA requirements.

A17. *Contractor shall bid the exhaust fans as specified and required by the Contract Specifications and Drawings. The Owner will obtain a BABA waiver for fans that are not able to comply with BABA.*

Q18: Who is responsible for the installation of the louvers?

A18: *As stated in Specification Section 15500, Paragraph 2.03.A, Louvers shall be furnished and installed under SECTION 10200 – Louvers, and shall be furnished and installed by the General Contractor. Connections to louvers shall be provided under Section 15500 (See Section 15500, 2.03 B).*
